Track, Manage, Save

DRIVE YOUR FLEET PERFORMANCE

Get on the path to improved fleet performance and cost savings with REAL TIME GPS FLEET TRACKING! GPS tracking is a powerfully simple tool for smarter fleet management. GPS FLEET TRACKING arms you with the intelligence you need to:

Improve worker performance

Track start/stop times, see driver routes, and receive time stamps for entering or exiting a job site so you can maximize your drivers' productivity.

Detect and eliminate waste and fraud

Identify and correct driver behaviors that can be detrimental to your business and impact your bottom line. These including speeding, excessive idling, route and schedule compliance, travelling outside authorized areas, unauthorized use of company vehicles, monitoring fuel and labor costs.

Increase accuracies and efficiencies.

Ensure accurate time reporting for billing and payroll and on-time scheduled vehicle maintenance.

SEE WHAT'S COSTING YOUR BUSINESS

GPS FLEET TRACKING lets you map, monitor and manage fleet activities that are costing your business. Your fleet is available 24/7 via an intuitive web-based user interface so you can control your fleet and correct performance where necessary.
